

THE NEW FRONTIERS in Gastric Cancer diagnosis and treatment

Forlì 2018, September 13th-14th

Auditorium San Giacomo,
P.zza Guido da Montefeltro, 7 - Forlì, Italy

Scientific Committee:

*Prof. Giorgio Ercolani, Dott. Paolo Morgagni,
Dott. Luca Saragoni, Dott. Leonardo Solaini*

 **CONSORZIO
FORMAZIONE
MEDICA**

PROVIDER STANDARD NAZIONALE - ID33

Promoted by

SCIENTIFIC PROGRAMME

Forlì 2018, September 13th-14th
Auditorium San Giacomo

Thursday, September 13th

08:30 - 09:00

Introduction

G. Ercolani, P. Morgagni, L. Saragoni

THE NEW FRONTIERS

President: *G. Ercolani (Italy)*

Chairmen: *P. Morgagni (Italy),
L. Saragoni (Italy)*

Interactive section: *L. Solaini*

09:00 - 09:20

Gastric Cancer in 2018: what's new?

JF Ji (China)

09:20 - 09:40

Novel insights in endoscopic
treatment of Gastric Cancer

T. Gotoda (Japan)

09:40 - 10:00

Molecular Classification of Gastric
Cancer

F. Carneiro (Portugal)

10:00 - 10:20

Hereditary Diffuse Gastric Cancer:
the International Consortium

RC. Fitzgerald (UK)

10:20 - 10:45

Interactive discussion

10:45 - 11:00

Coffee break

THE NEW SURGICAL FRONTIERS

President: *A. Zaccaroni (Italy)*

Chairmen: *HJ. Meyer (Germany),
A. Donini (Italy)*

Interactive section: *R. Reddavid (Italy)*

11:00 - 11:20

Global view on Gastric Cancer
treatment: Is it now gastric cancer
in the West more aggressive than in
the past?

G. De Manzoni (Italy)

11:20 - 11:40

Japanese randomized trials (JCOG):
challenges for new perspectives

M. Terashima (Japan)

11:40 - 12:00

Mini-invasive gastrectomy for Gastric
Cancer: what the KLASS trials can
teach to the world?

HK Yang (Korea)

12:00- 12:20

Present and future perspectives in
multimodal treatment of Gastric
Cancer

F. Lordik (Germany)

12:20 - 12:45

Interactive discussion

12:45 - 14:00

Lunch

ACCURATE STAGING FOR APPROPRIATE TREATMENTS

President: *O. Triossi (Italy)*

Chairmen: *C. Benavides (Chile),
R. Rosati (Italy)*

Interactive section: *A. Zanoni (Italy)*

14:00 - 14:15

A better clinical staging means more
appropriate treatment strategies?

W. Allum (UK)

THE NEW FRONTIERS

in Gastric Cancer diagnosis and treatment

14:15 - 14:30

The role of posterior and paraortic lymph node dissection in Gastric Cancer staging

F. Roviello (Italy)

14:30 - 14:45

Peculiarities of clinical staging in EGJ cancers; Thoracic or Abdominal Cancer?

S. Moenig (Germany)

14:45 - 15:15

Interactive discussion

FOCUS ON POORLY COHESIVE AND SIGNET RING CELL GASTRIC CARCINOMA

President: *M.P. Foschini (Italy)*

Chairmen: *G. De Manzoni (Italy), W. Allum (UK)*

Interactive section: *M. Bencivenga (Italy)*

15:15 - 15:30

Mixed type Gastric Cancer: a "de novo" carcinoma

M. Vieth (Germany)

15:30 - 15:45

Issues in pathological definition and classification of Poorly Cohesive and Signet Ring Cell Gastric Carcinoma

F. Carneiro (Portugal)

15:45 - 16:00

Prognostic role of intratumoral stroma in Poorly Cohesive and Signet Cell Gastric Carcinoma

H. Grabsch (Netherlands)

16:00-16.15

Tailored diagnostic and treatment strategies for Poorly cohesive and SRC carcinoma

M. Sasako (Japan)

16:15 -16:45

Interactive work with the audience on signet ring case reports

A. Tomezzoli (Italy)

INNOVATION IN PERI-OPERATIVE MANAGEMENT

President: *GL. Garulli (Italy)*

Chairmen: *C. Malheiros (Brazil), S. Rausei (Italy)*

Interactive section: *De Pascale (Italy)*

16:45 - 17:00

Pre-operative nutritional assessment in Gastric Cancer

S. Giacomuzzi (Italy)

17:00 - 17:15

ERAS protocols in Gastric Cancer surgery

U. Fumagalli Romario (Italy)

17:15 - 17:30

Post-operative complications: the European Consensus

G. Baiocchi (Italy)

17:30 - 18:00

Complications case reports and interactive work on European consensus recording sheet

E. Marino (Italy)

18:00

Greetings from the Authorities

Friday, September 14th

NEW OPPORTUNITIES AND PROBLEMS AFTER NEO-ADJUVANT TREATMENTS

President: D. Amadori (Italy)

Chairmen: F. Lordik (Germany), C. Garcia Carrasco (Chile)

Interactive section: F. Steccanella (Italy)

08:30 - 08:45

Final results of Italian DOX Trial
O. Nanni (Italy)

08:45 - 09:00

Issues in radiological re-staging after neo-adjuvant treatment
MA. Mazzei (Italy)

09:00 - 09:15

Issues in pathological assessment after neo-adjuvant treatment
R. Langer (Switzerland)

09:15 - 09:30

Post-operative morbidity after neo-adjuvant therapy
D. Marrelli (Italy)

09:30 - 09:45

Biomarkers for prediction of tumour response to neo-adjuvant treatments
D. Melisi (Italy)

09:45 - 10:00

The FLOT trial
S. Moenig (Germany)

10:00 - 10:30

Interactive discussion

10:30 - 10:45

Coffee break

WHEN TO PERFORM MORE AGGRESSIVE SURGERY?

President: G. Poggioli (Italy)

Chairmen: AC. Weston (Brazil), M. Degiuli (Italy)

Interactive section: L. Ruspi (Italy)

10:45 - 11:00

Surgery in T4b gastric cancer
T. Sano (Japan)

11:00 - 11:15

Surgical indications in Gastric Cancer with liver metastases
G. Tiberio (Italy)

11:15 - 11:30

Conversion surgery in Gastric Cancer with peritoneal metastases
K. Yoshida (Japan)

11:30 - 11:45

What surgical limits in very advanced EGJ carcinomas?
A.H. Hoelscher (Germany)

11:45 - 12:00

Beyond the trials: when paraortic dissection is indicated?
M. Sasako (Japan)

12:00 - 12:30

Interactive work with the audience on conversion surgery and neoadjuvant treatment
S. Ministrini (Italy)

THE NEW FRONTIERS

in Gastric Cancer diagnosis and treatment

GENETIC FOR LIFE

President: G. Martinelli (Italy)

Chairmen: CE. Jacob (Brazil),
F. Roviello (Italy)

Interactive section: K. Polom (Poland)

12:30 - 12:45

Up-date in Hereditary Gastric Cancer

C. Oliveira (Portugal)

12:45 - 13:00

Screening for Hereditary Diffuse Gastric Cancer and management of affected families

RC. Fitzgerald (UK)

13:00 - 13:15

The new guidelines

RS. Van der Post (Netherlands)

13:15 - 13:45

Interactive discussion

13:45 - 15:00

Lunch

WHAT CAN WE IMAGINE FOR THE FUTURE?

President: G.L. Frassinetti (Italy)

Chairmen: L. Lourenco (Brazil),
D. Marrelli (Italy)

Interactive section: M. Gualtierotti (Italy)

15:00 - 15:15

Neoadjuvant treatment: how can we compare in the future, results from so different trials?

C. Caballero (Belgium)

15:15 - 15:30

New technologies in Gastric Cancer surgery

HK. Yang (Korea)

15:30 - 15:45

Robotic surgery in the West

B. Zilberstein (Brazil)

15:45 - 16:00

Minimally invasive surgery, why or why not?

S. Preston (UK)

16:00 - 16:30

Interactive discussion

16:30 - 16:45

Coffee break

WHAT CAN WE IMAGINE FOR THE FUTURE RESEARCH?

President: S. Tamperi (Italy)

Chairmen: L. Borgno (Uruguay),
G. Sgroi (Italy)

Interactive section: F. Rosa (Italy)

16:45 - 17:00

Preclinical research on molecular therapy

S. Giordano (Italy)

17:00 - 17:15

New immunological and biological drugs in Gastric Cancer

S. Cascinu (Italy)

SCIENTIFIC PROGRAMME

Forlì 2018, September 13th-14th
Auditorium San Giacomo

17:15 - 17:30

Clinical application of molecular classifications of Gastric Cancer
D. Marrelli (Italy)

17:30 - 17:45

The role of the national associations: standardization and collaboration
P. Kassab (Brazil)

17:45 - 18.15

Interactive discussion

18.15 - 18:45

Anatomo-Surgical Practice in 17th and 18th century: archeo-anthropological cases from the old hospital cemetery in Forlì
M. Traversari (Italy)

18:45

Conclusions
G. Ercolani, P. Morgagni, L. Saragoni

THE NEW FRONTIERS

in Gastric Cancer diagnosis and treatment

Under the patronage of

In collaboration with

Gruppo Cultura AUSL Romagna

Training event in the process of accreditation

How to get to Forlì

By plain: Guglielmo Marconi Airport in Bologna
(via Triumvirato, 84)
telephone +39.051.647.96.15
www.bologna-airport.it

By train: main north-south train links through the
Milano-Bologna-Ancona and
Milano-Bologna-Firenze-Roma lines

By car: motorway A14 from Bologna to
Rimini, exit Forlì;
Strada Statale n. 9 (via Emilia)
